THE WATERMAN BOWL, 1990

This year it is our great pleasure to award
The Waterman Bowl to a member of our club who has been outstanding in her contributions to gardening and to the community.

She is an inspiration as a teacher who gives generously of her time and stimulates our interest, especially in conservation and the environment. Her workshops in flower arranging, horticulture and pruning have been great learning experiences where she willingly shares her knowledge and expertise. The creativity and originality of her flower arranging inspires us all.

Her devotion to the Club's civic projects, especially the Triangle, is appreciated by the entire community. Many organizations such as Connecticut Fund for the Environment, The Edgerton Garden Center, and the Altar Guild at Trinity Church, have benefitted from her energy and enthusiasm.

We are delighted to present the bowl to Barclay Smith whose leadership and talent have contributed so much to our club.
